Juboraz Afnan Mehmud

afnananikjubo@gmail.com | 01961755990 | Dhaka, Bangladesh | Linkedin | GitHub

INTERESTS

Mobile Application Development | Artificial Intelligence & Machine Learning | Game Development | UI/UX Design | Software Engineering.

EDUCATION

United International University, Dhaka, Bangladesh **Expected Graduation: 2027**
B.Sc. in Computer Science and Engineering

NOTABLE PROJECTS

PetTown
https://github.com/AfnanAnikk/Pet-Town

- An all-in-one mobile platform for pet owners to connect with other pet lovers, share moments, discover pet-friendly services, and build community.
- Tech Stack: Dart, Flutter.

Guardian Collar
https://github.com/AfnanAnikk/Guardian-Collar

- A companion mobile application for a smart pet collar.
- Tech Stack: Dart, Flutter.

BattleSquares
https://github.com/AfnanAnikk/BattleSquares

- A trading card game (TCG) developed as a course project for Advanced Object-Oriented Programming (AOOP).
- Tech Stack: Java.

Pet Town UI/UX Design
https://github.com/AfnanAnikk/Pet-Town-UI-UX-Design

- Designed the complete UI/UX for the PetTown platform in Figma as part of a Systems Analysis & Design (SAD) lab project.
- Tech Stack: Figma.

Last Card Web App
https://github.com/AfnanAnikk/Last-Card-game

- A web-based rendition of the classic UNO card game.
- Tech Stack: TypeScript.

Last Card Mobile App
https://github.com/AfnanAnikk/Last-Card-Mobile-App

- Mobile application version of the UNO-inspired Last Card game.
- Tech Stack: Dart, Flutter.

SKILLS

Programming: Python, Dart, Java, C++, C#, JavaScript.
Frameworks/Tools: Flutter, TensorFlow, Node.js, MySQL, Figma.
DevOps/Systems: Git, GitHub, Linux, Ubuntu.
Soft Skills: Communication, Creative Writing, Team Collaboration, UI/UX Design Thinking.

ACHIEVEMENTS

4th Runner-Up, CSE Project Show Spring 2026 (Microprocessors & Microcontrollers Lab) 2026

Finalist | BUP Hackathon 2026
